ST. JOSEPH'S COLLEGE: A WARM AND CARING ENVIRONMENT

By Sal Fragliossi
The Class of 1994

I want to take this time to thank some of those special people at St. Joseph's College that helped make my time here one of learning and enjoyment.

The first person I met was Angie Diaz. It is Angie's high energy, outward style, and her super friendly way that made me feel welcome at St. Joseph's. The next person I met was Linda Fonte. Linda's pleasant way and manner in which she presented the degree programs offered at St. Joseph's made them very appealing to me. Finally, meeting Suzanne Trappier was the icing on top of the cake that made me decide to attend St. Joseph's.

Each of these three people Angie, Linda and Suzanne have a high degree of knowledge and expertise in their respective jobs. Angie was right on target when she evaluated my transcripts from previous colleges I attended and which courses would be accepted at St. Joseph's toward my degree. With Linda's guidance, I was able to steer on a direct course toward my degree, much like a Cruise Missile, being guided by a computer system that directs it to its target. Suzanne was there as a backup for advice

A WARM AND CARING ENVIRONMENT (CONTINUED)

with a high degree of quality advice. These three people are of the highest caliber and deserve full recognition for their work and contributions to St. Joseph's.

I cannot close this statement without making mention of those members of the faculty that contributed to my stay at St. Joseph's. The learning experience that I gained from their teaching will be with me forever. I am going to list them in alphabetical order because they are all equal in my eyes: Robert Dunn, Debra Freedman, Gloria Gasper, Yvonne Greatheart, Regis Lake and Thomas Napolitano. I would also like to thank Ruthy Danvers in the Business office and Patrick Regnier in the Financial Aid office.

To close I want to say that all these people make St. Joseph's what it is today, an institution of higher learning that has a life affirming character of its own. I will continue to recommend St. Joseph's to my friends. I wish them and their families a happy and healthy life.

St. Joseph's College

To the Graduates of 1994,

The occasion of your graduation marks the completion of a long and difficult process. In pursuit of this significant educational goal, you have, not only mastered a challenging curriculum, but you have done so while simultaneously tendering to the demands of your professional and family responsibilities.

One reward for this effort is the attainment of the baccalaureate — you are now in possession of a credential that will serve as a foundation on which you can build, both with regard to your career and future educational attainments. More than this, however, you have completed a learning experience designed to provide you with abilities and understandings to increase your professional effectiveness and your knowledge of yourself and the world.

As adult learners you are a testament to the maximum that education and personal development are lifelong processes. It is my hope that the tremendous accomplishment which is celebrated in this *1994 Achievements* will encourage you to continue on the path that you have set for yourself.

Again this year I want to express my appreciation to Daniel Beni and S. Carole Lessard for their efforts to make this, our twelfth yearbook, such a resounding success.

May *Achievements 1994* serve as a permanent reminder of your years of study at St. Joseph's College.

Congratulations and Best Wishes for the future,
Sincerely,

MY TIME AT ST. JOSEPH'S
BY JOSEPH CHILLEMI
THE CLASS OF 1994

My time at St. Joseph's College has been rewarding and enriching. I have met many caring and helpful individuals here: teachers, students, and administrators who encouraged and listened to me. Whenever I entered Lorenzo Hall, I felt welcomed. Teachers gave freely of their time - in class, in the office or on the telephone. My fellow students were inspiring. It was always amazing to watch them juggle school, family, and career. Looking back, I will always have fond memories of my time at St. Joseph's College.

TOWARD THE FUTURE
BY LAUREL WHITTAKER
THE CLASS OF 1994

The graduating class of 1994 are now ready to join the alumni which have completed their baccalaureate studies at St. Joseph's College. In the years to come, we will reflect upon the efforts made by the faculty and staff here to enable us to move forward, and how we have enriched the college through our diversity. We are the future of this nation and we will determine this country's direction in the next century. We thank each other and St. Joseph's College for preparing us for the challenges ahead.

Daniel Beni, Preceptor in Health Administration and Achievements Coordinator

To The Graduating Class of 1994,

The realization of this, our twelfth yearbook, has involved the combined talents and dedication of many individuals. I would like to take a moment to express my deep appreciation to all those who have worked so diligently. In particular, I must single out Joseph Chillemi, Sal Fragliossi, George Jacobs, Barbara Kornhaber, Yveline Louis-Champagne, Yvonne Roberts and Laurel Whittaker for helping to make this edition of ACHIEVEMENTS a resounding success.

I would also like to thank Sister Carole Lessard and Sadie McMillan, for their ongoing administrative support this year. I pay tribute to all of the graduates of 1994. May you achieve all you desire and may the memories you have had here last a lifetime.

Cordially,

Daniel Beni

A PLACE OF ACCOMPLISHMENT

By Barbara Kornhaber
The Class of 1994

As a mother of four, a nurse of almost thirty years and a wife, I did not expect to be exposed to many new situations and opportunities in life. To my delight and surprise, I was exposed to so many great experiences at St. Joseph's College. From the challenges of Critical Thinking to the preparation required by the Research Seminar, I gained discipline and varied learning at St. Joseph's. I increased my sense of self-esteem, and I am filled with a real sense of pride and accomplishment. I am grateful and recommend St. Joseph's to all adults who want to accomplish and achieve much in their lives.

ST. JOSEPH'S COLLEGE: A COMMUNITY OF CARING

By George Jacobs
The Class of 1994

St. Joseph's College has the feeling of a community of great comfort and learning. It welcomes all, with a big, wide, sincere smile. The staff makes it possible for students to say yes to their dreams. Inside its halls, we hear the voices of knowledge triumphing and enlightening willing minds. On Saturday mornings, we gather together, in our quest for knowledge albeit often weary from the demands of parenthood, marriage, and the necessity of making a living. In these halls, men and women of diverse ethnic and professional backgrounds exchange ideas and information. Here we speak of shared friendships and a common goal - graduation. Life is an ongoing collection of human experiences. The experiences we have shared at St. Joseph's are valuable building blocks for a more rewarding life.

EDUCATION

By Yvonne Roberts
The Class of 1994

My children were happy when I returned
to school
because they know that education is a
valuable tool.
My motto was to become a college
graduate
Especially as a motivator for my
children sake.

If I had known that St. Joseph was
so great,
Continuing school would not have been
such a long wait.
I have met people who really did
care
With words of advice to students who
had some fear.

Studying sometimes was very hard to do
Especially being a teacher, student, a wife
and mother too.
I kept telling myself that I had to make
it to the top
And nothing would ever, ever make me stop.

Thank God I have come to the end
of the road.
There are lots of good things about
St. Joseph's to be told.
All that one has to do is to maintain
good grades
With the help of the faculty members and
other aides.
